
ENROUTE AND AIR-TO-AIR FREQUENCIES

Strait of Georgia (West of TCA boundary), Howe Sound and Burrard Inlet	123.2
Pacific Radio (FISE)	
- Victoria Intl RCO	122.37(S)
- Vancouver Intl RCO	123.15, 122.375
- Abbotsford RCO	122.5
Common Frequency used in Flight Training Areas and along Fraser River Valley between Flight Training Areas	
- Glen Valley, Pitt (CYA188 & 185) including Fraser River west of Mission Bridge VFR Checkpoint	122.72(S)
- Sumas, Harrison (CYA184,105 & 186) including Fraser River east of Mission Bridge VFR Checkpoint	122.77(S)
- Duncan (CYA118, 113 & 135)	123.02(S)

COMMUNICATION GUIDELINES FOR USING A COMMON FREQUENCY IN TRAINING AREAS

Pilots are encouraged to use the designated common frequency when flying in the Vancouver training areas. Radio transmissions on a common frequency should be the minimum required to provide the aircraft's position and pilot's intentions. Example transmission:

"GLEN VALLEY TRAFFIC CESSNA GOLF ALPHA BRAVO CHARLIE TWO MILES SOUTHEAST OF FORT LANGLEY CONDUCTING AIRWORK AT THREE THOUSAND FEET AND BELOW"

Flying within a training area and using a common frequency does not alleviate a pilot from the responsibility for monitoring and/or communicating on, when required, an ATC frequency, aerodrome traffic frequency (ATF) or any other appropriate frequency.

LEGEND

- Common Frequency Area (CFA)
- Hang Gliding Operations Area
- Parachute Dropping Operations Area
- VFR Checkpoint
- Caution Areas for Military Activity
- Aerodrome Traffic Frequency Area
- IFR Approach Tracks
- Jet Tracks
- VFR Route - Follow route unless otherwise instructed
- VFR Route - One way
- VFR Route - Transit Route
- Terminal Class "C" Route
- VFR Heli Route

VANCOUVER HARBOUR AND VANCOUVER TRANSIT ROUTES

ATIS	TWR (OUTER)	TML	HARBOUR TWR	HARBOUR ATIS	ADVISE ATC IF ALTITUDE OR ROUTE CHANGE IS REQUIRED
