PRO

GENERAL: (Refer to VTPC and Aerodrome Sketch)

All of the following procedures limitations, and restrictions comprise the aviation components of the Port of Victoria Traffic Scheme (PVTS). All surface vessels operate with reference to the marine components of the PVTS. Considerations for noise abatement are found in procedure items 2, 3, 4, 6 and 7 and in restriction 4.

1. All arr/dep will be via the harbour entrance or the Gorge as depicted on VTPC. Aircraft call rdo 122.2 at 10NM out (fr the N report at Mount Doug), advs acft type, alt & intentions. Report on base leg for the harbour at Beacon Hill or Dock Yard. Ldg westbound, report over the Admirals. FSS will activate the strobes advising mariners of arr/dep acft.
2. No acft shall overfly the city of Victoria at alt below 2000' exc in transition for tkof & ldg.
3. Acft arr/dep via the Shoreline Route shall remain a horizontal distance of at least 2000' off shore.
4. Tkofs shall commence at the threshold of Tkof & Ldg Areas A & B. Wind, water and load conds permitting, pilots are to use Area B southbound as the primary tkof area. Pilots should operate landing/pulsating lgts immediately prior to tkof.
5. During strong south-easterly winds, south-eastbound tkofs are authorized within the Inclement Weather Operating Area. Commence tkof in West Bay and remain west of the Small Vessel Transit Route at Shoal Point. (See CAUTION).
6. Wind, water & load conds permitting, pilots are encouraged to land northbound in Area B or eastbound in Area A & plan ldg to avoid the use of reverse thrust.
7. Acft ldg in Area A westbound, cross Johnston St. Bridge at 500' or above and, commensurate with safety, remain east of Tuzo Rock crossing between Laurel Point and Songhees Point on final at the highest possible altitude for stabilized descent and landing.
8. a) Taxiing acft are vessels and must comply with both the Marine Collision Regulations and 'Right of Way-Aircraft Manoeuvring on Water'. CAR 602.20.
b) Taxiing acft should leave the tkof & ldg areas if required to avoid conflict with other acft or large vessels.
9. For Hyack Dock space: GVHA 250-383-8326/8300

RESTRICTIONS:

1. Pursuant to CAR 602.96(3)(d), PPR reqd from Harbour Airport Manager 250-363-3578, 250-380-8177.
2. Pursuant to CAR 602.96(3)(d), step taxiing not auth. Inner/Middle Harbour max taxi speed 5 kt. Outer Harbour max taxi speed 7 kt.
3. Pursuant to CAR 602.96(3)(d), acft shall maintain a distance of at least 50 m (165') from surface vessels during tkof or ldg. For the purpose of this restriction take off means "from the start of the take off slide to an altitude of 150' ASL", landing means "descent from an altitude of 150' ASL to touchdown and off the step".
4. Pursuant to CAR 602.96(3)(d), unless otherwise authorized by Airport Manager, no floatplane tkofs or lgds before 0700 lcl.
5. Pursuant to CAR 602.96(3)(d), Twy area not auth when tide is below the bottom of the white horizontal tide markers (located on base of Pelly I. and Tuzo Rk marine lights).
6. Pursuant to CAR 602.96(3)(d), westbound tkofs and landings in tkof & ldg area A shall not commence until west of a line joining the N and S markers.
7. Pursuant to CAR 602.96(3)(d), eastbound landings in tkof & ldg area A shall be completed and acft at or below 5 kt before crossing east of a line joining the N and S markers.
8. Pursuant to CAR 602.96(3)(d), no Ab Initio or acft training
