

Northeast Corridor Atlantic Coast Routes (NEC ACR)

Attention FltPlan.com flight plan filers:

There are numerous changes to the high-altitude airways (Jet Routes) taking effect on December 5, 2019. Pilots will notice many airway changes to and from the southeast via the eastern seaboard. Approximately one year ago, the FAA started adding Q-routes to this area. With the Q-routes in place, there will be 32 J-Routes either cancelled or amended.

As of December 5th, the affected airways will be NOTAMed "NA" (Not Authorized). On January 30, 2020, they will be removed altogether. We have adjusted our airway data to reflect these NOTAM changes and this data will be on-line by November 23. This will prevent you from inadvertently filing a flight plan using a "not authorized" (NOTAMed) airway segment.

If you have already made a flight plan with a departure date of Dec 5th or later AND it involves the southeast U.S.A. or Caribbean, we suggest you re-save your flight plan after November 23rd to ensure a valid route is used.

We are in the process of updating our suggested routes to reflect these changes but this data will not be available until a later date.

See J route changes, below.
